

Grzegorz Pasich

Hi, my name is Grzesiek, I am student of third year IT on Crakow University of Technology. I'm interested in programming and IT field for three years that's why i study IT.

I work as an International forwarder on a daily basis, that's why working with work staff is familiar to me, I know what is teamwork and i like work with others people.

I like solving various problems, my strengths are creativity, communicativeness, independence and good organization of work and achieving the set purposes.

I would like to start developing in my target profession in IT field, that's why I am submitting an application to your company because in my opinion work and gaining experience is the best form of gaining knowledge and skills.
